BEST *time* TO TRAVEL

Europe

Best for Sightseeing & City Breaks: Spring (April–May) or Autumn (September–October). You will experience comfortable weather, lighter crowds at major landmarks like the Colosseum or the Louvre, and generally cheaper flights

Africa

The best overall time for an African safari is during the dry season (June to October). Vegetation is sparse and animals cluster around shrinking waterholes, making them significantly easier to spot.

French Polynesia

The best months to visit French Polynesia are May and September. These shoulder-season months provide the absolute perfect balance, offering dry, sunny weather and comfortable temperatures while avoiding the peak-season crowds.

Southeast Asia

The best time to visit Southeast Asia is between November and February, when the weather is coolest and driest. You'll experience sunny, less humid weather perfect for sightseeing.

Caribbean

The best time to visit the Caribbean is December to April, when the dry season brings optimal weather, maximum sunshine, and lower humidity. Expect peak crowds and premium prices. For a mix of good weather and great deals, visit during the May to June shoulder season.
